Transmission

Whether manual or automatic transmission, all models are more light, and have good response due to optimized gear ratio. As a result, Grand starex offers great performance and fuel economy.

Automatic Transmission

5-speed auto transmission with sports mode for 2.4L MPi petrol engine is now available. This has been developed to make every aspect of driving more secure and relaxed.

Manual Transmission

Dual mass flywheel is applied in this new 5-speed manual transmission for rear wheel drive to reduce drivetrain noise. Furthermore, optimized gear ratio and synchro-improving secure good fuel economy and shift feeling.

Deluxe Space

Hyundai's ever-creative design team has produced an interior equal of those in most of today's high class passenger cars. You only have to look at the results to feel the superb fit and finish of the components to appreciate the achievements of the designers, engineers and technicians. They symbolize the Hyundai philosophy of aiming to be the best. Advanced mesh type leather and fabrics give a soothing, luxurious feeling. Ergonomics that place every control easy to handle and activated, are part of tradition. The high quality feel of the steering wheel and gearshift further emphasize the in-depth quality and refinement.
